PROFILE

Web Developer with hands-on experience in building responsive websites and web applications using JavaScript, Node.js, React, and Tailwind CSS. A T-shaped developer with broad knowledge of multiple programming languages and tools, while specializing deeply in JavaScript and modern frontend frameworks. Skilled in both front-end and basic back-end development, with a strong foundation in problem-solving and clean coding practices. Experienced in freelance projects, collaborating directly with clients to deliver user-friendly, optimized solutions. Eager to contribute technical expertise and creativity to a dynamic development team while continuing to grow professionally.

WORK EXPERIENCE

Fullstack Web Developer (Remote) 2020 - PRESENT
Senior Web Developer

- Develop and maintain responsive websites and web applications using HTML, CSS, JavaScript, React,NodeJS,VueJS and Tailwind CSS. Collaborate remotely with clients to gather requirements, provide updates, and deliver projects on time
- . Troubleshoot and debug technical issues to ensure websites run smoothly across devices and browsers. Apply UI/UX best practices while managing multiple projects independently to deliver user-friendly and optimized solutions
